

SWIFTEC SWT

CONCRETE BATCHING PLANT

 **GAINWELL**®

EUROTEC

Modular Design

Ecotec plants with 3 common rated output capacities, 60m³/hr, 75m³/hr & 90m³/hr, are designed with both modular and affordability in mind for customers who want a quality & performance plant but with a limited budget.

SWIFTEC Batching Plants are designed with both modular and affordability in mind. The modular design allows for easy transportation, fast installation and dismantling upon completion of a project. They require minimal foundations and no or minimal loading ramp, comes with 2 –sided Aggregates Bins (quadrant design) for materials to be loaded effortlessly.

Highlights

- Modular design with affordability & quality in mind.
- Minimal foundation and no loading ram required.
- Fast installation on site.
- Economical mobilisation costs.
- Compact design to suit small job sites in urban city areas.
- Built-in Operator's Control Room with Electrical Control Panel for Emergency Manual
- Operations and ECS Process Control System software for Fully Automatic Operations.

Technical Specifications

Description	SWIFTEC60	SWIFTEC75	SWIFTEC90
Rated Output Capacity*	60 m ³ /hr	75 m ³ /hr	90 m ³ /hr
Mixer Type	Twin-Shaft Mixer	Twin-Shaft Mixer	Twin-Shaft Mixer
Output per Batch	1.0 cu. m	1.5 cu. m	2.0 cu. m
Nos. of Aggregate Bins	4	4	4
Aggregate Batching Sequence	Cumulative	Cumulative	Cumulative
Cement Weigher	750 litres	850 litres	1000 litres
Water Weigher	375 litres	500 litres	650 litres
Additive Weigher**	2 x 12 litres	2 x 12 litres	2 x 12 litres
Connection Power	90 kW	120 kW	150 kW
Generator Set Capacity	150 kVA	200 kVA	250 kVA

*Output based on Max 3 Aggregates Weighing. **Optional Items
All specifications are subjected to changes without prior notice.

Main components

- 1 Water weighing unit
- 2 Weighing unit
- 3 Mixer
- 4 Built in control room
- 5 Aggregate feeder
- 6 Belt conveyer

About Lintec & Linnhoff

Lintec & Linnhoff is a global manufacturer and distributor of leading-edge solutions for the asphalt and concrete industries under the Lintec, Linnhoff and Eurotec brand names. Its products include asphalt mixing plants, concrete batching plants, pavement related technologies and machinery, and specialist concrete cooling solutions. The company's key technologies include Lintec's containerised asphalt and concrete batching plants built in 100% certified ISO sea containers and Linnhoff's screen drum technology.
